Del Rio, Texas Border Patrol Receives Award for Community Contributions

(12/31/2007)

DEL RIO, Texas – The Del Rio, Texas Border Patrol sector was recognized on December 13, for its long-term involvement in and contributions to the local communities. Representatives from the Pathways Organization presented the Del Rio Border Patrol with a memento signifying the honor.

The Pathways Organization is a non-profit that provides care and shelter for children who have been removed from their family settings as a result of some type of abuse. The Val Verde Group home was opened in 2005 and serves the needs of several counties as it is considered a rural home. There are currently multiple children of various ages residing in the home.

The majority of these children had never celebrated a birthday, let alone opened a gift. Agents from the Del Rio Sector donated their time and money to ensure these children have the opportunity to enjoy these experiences and have a brighter tomorrow.

The Border Patrol in the Del Rio Sector has been with Pathways from its inception. During the past through agent involvement and word of mouth, our sector participation has increased tremendously, making the shelter a success.

"I truly believe as guardians of our nation's border a moral obligation to also protect its future; our children said Del Rio Sector Chief Randy Hill, "The selfless the Del Rio Border Patrol is an example to all that never forget to help those in need."

SBPA Stanley Hanson accepted a poster recognizing Sector's contributions to the local community December behalf of Del Rio Sector.
